### **BOX II. OBSERVATIONS WHERE UNITY OF INVENTION IS LACKING**

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1. In order for all inventions to be examined, the appropriate additional examination fees must be paid.

Group I, claim(s) 1-23, are drawn to a game piece article.

Group II, claim(s) 24-34, are drawn to a method of creating a hidden image file.

Group III, claim(s) 35-50, are drawn to a method of using a game piece.

The inventions listed as Groups I, II, and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I and III lack the technical feature of forming a mask layer as stated in Group II. Groups I and II both lack the technical feature of a method of collecting demographic information as stated in Group III.
